How to upload your proofed and fixed type animal description

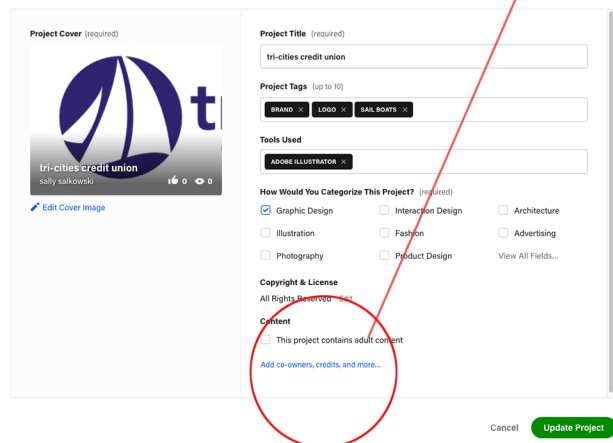

- 1 You can add content to an existing project by placing your cursor over a project cover on your profile page and moving it over to the upper left corner until a gear icon appears. Select "Edit" from the drop down menu that appears.

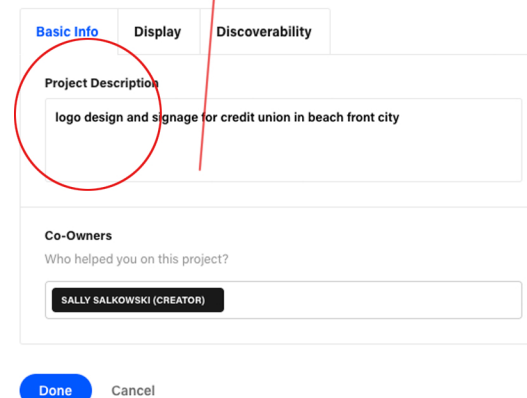

- 2 Look to the right side of your page, find the settings logo and click.

- 3 At the bottom of this window, click on the blue text that says add co-owners

- 4 Under Project Description paste in your proofed and fixed description of your type animal project
